Organizations Having Jurisdiction Over Passenger and Freight Rates

Must Go to Pieces-All Rallway Organiestions Having for Their Purpose the Maintenance of Agreed Rates and Division of Traffic Are lilegal.

CHICAGO, March 24.-Within a week it is expected by high railroad officials that not one of the organizations having jurisdiction over passenger and freight rates will be in existence in this country, as a result of the decis-ion of the United States supreme court that all associations which have for their purpose the maintenance of agreed rates and the division of traffic are illegal. The oldest organizations of this character must go to pieces. There is no loop-hole for escape. In fact, the work of disintegration began in this city Tuesday, the legal advisers of the great railroads being quick to grasp the hopelessness of the situation, so far as continued membership in those associations was concerned.

General Solicitor Kenna, of the Santa Fe system, advised the traffic manager of that road to withdraw immediately from all freight associations of which it has been a member. It is believed Mr. Kenna will also advise the Santa Fe's withdrawal from all passenger associations Wednesday.

A long consultation with other attorneys of the Chicago, Milwaukee & St. Paul road was held by General Solicitor Peck. Before the meeting of lawyers Mr. Peck stated he would advise the St. Paul's withdrawal at once from all associations.

The council for the Chicago, Rock Island & Pacific advised the officers that the only legal course to pursue was to sever connections with all asso-

On reliable authority it was stated that the following other important lines have also decided to give similar notice of withdrawal: St. Louis & San Francisco, Minneapolis & St. Louis, Chicago & Great Western and Wisconsin Central.

The peremptory action of all these companies means the certain disruption of the following associations and committees: Western Freight association, Trans-Continental Passenger association, Western Passenger association, Southwestern Traffic association, Trans-Missouri Freight association, Southwestern Passenger committee, Mississippi Valley Freight committee, St. Paul & Minneapolis Rate association, Colorado Freight association, the local passenger associations of St. Louis, Colorado Springs, l'ueblo, Denver and Chicago, Local Freight Agents' association of Chicago, St. Louis Association of General Passenger Agents, Chicago and St. Louis Traffic association, Western Classification committee, and Minneapolis Terminal Freight as-

VOLCANO OF COTIMA.

in Ernption That Exceeds Any in th Memory of the Oldest Inhabitants. ST. LOUIS, March 24 -A special to the Globe-Democrat from Cotima, Mex., says the volcano of Cotima has broken out in an eruption that exceeds any in the memory of the oldest inhabitants. The premonitary earthquakes and explosive noises that have come from the mountains for more than three months culminated Sunday night in an eruption that is most beautiful. The flames by night and the clouds of smoke by day shoot up to a wonderful height. The lava-flow has been slow coming, but it is now making its appearance over the edge, and the people living in towns adjacent to the mountain have deserted their homes and taken refuge in Cotima. Two large haciendas have been covered with ashes and lava, and when the expected break occurs it is probable that several villages will be buried under the lava.

CONVICTS

Placed at Work Strengthening the Levees South of Memphis.

MEMPHIS, Tenn., March 24.-The greatest scene of activity in the country perhaps is along the levees south of this city, where the people, reinforced by convicts, are strengthening them against the enormous pressure from the flood. There are thousands of men thus engaged, under the supervision of United States engineers and the levee board of officials. Up to 11 p. m. there has been heard no report of a collapsing levee Tuesday, though there were numerous weak spots in the systems. The river here Tuesday was about stationary, but is expected to take another rise as there is sufficient water coming down for that purpose.

The three thousand or more flood re'ugees are being adequately provided for, contributions coming from all over the country.
